

# Stay Money Smart. Don't Borrow More Than You Can Repay.

1

## Affordability tests make monthly repayments a breeze.

At EasyPay Loans, we want you to borrow only what you can afford to comfortably repay each month. This means you can avoid debt traps and over-extending yourself.

2

## Safe loans make life easier, not harder.

A loan should be about making your life easier, not harder! A loan you can afford means more money, less worry.

3

## Build a credit record through good payment behaviour.

Keeping your loan repayments manageable every month, you'll avoid the stress and keep your finances healthy. When you repay your loan each month, you have a better chance of getting credit down the line.
